

CATALIS® 

THE NEW GENERATION OF COURTS & LAND RECORDS SOLUTIONS

Empowering Government Agencies Through an Integrated Platform

The leading provider of Integrated payments and software solutions for utilities and customers across North America

About Catalis

Catalis is the transformational SaaS and integrated payments partner powering all levels and sizes of government – utilities, municipalities, counties, states, and federal agencies. Our deep expertise, proven track record, and thoughtfully configured digital solutions have helped public servants across the U.S. and Canada to deliver at their highest ability on behalf of their communities.

Courts & Land Records Solutions that Transform Your Everyday Operations

Catalis solutions help courts and justice agencies provide better access to justice for citizens. Our government-focused software offers courts and justice agencies the ability to automate complex workflows in order to build sustainable and consistent operations. Catalis provides industry-specific support, focused on collaboration and efficiency, and remains at the forefront of technology in government.

The Challenging Nature of the Courts System

As courts across the country struggle with high caseloads and limited resources, there is little bandwidth to consider new software platforms. For courts to overcome these challenges, upgrading to a future-focused solution will enable new approaches that help agencies move forward. With our integrated technologies, including both on-premise and SaaS solutions, governments will benefit from a unified solution built to streamline processes and eliminate inefficiencies.

Time Management

Labor-intensive systems and complex workflows leave court teams with limited time for important tasks

Inefficient Processes

Lack of data insight and non-integrated systems result in redundant work and errors

Understaffing & Case Backlogs

Staffing constraints that make it challenging to keep up with reporting, case backlogs, and administrative duties

Outdated Software

Legacy systems with little flexibility and limited capabilities lead to an overburdened staff

DIGITAL SOLUTIONS DESIGNED FOR GOVERNMENT OFFICES

> JUDGES

> COURT CLERKS

> COURT ADMINISTRATORS

> IT STAFF

> LAW ENFORCEMENT

> COUNTY RECORDERS

Courts & Land Records

Solutions for the Digital Age

Our portfolio of software tools makes purposeful impacts on communities throughout the nation. Catalis has developed dynamic software that integrates with existing systems to streamline court operations so you can work at your best.

Court Case & Community Justice Case Management

Automate case management processes with comprehensive solutions

Online Dispute Resolution

Allow citizens to securely and virtually resolve common disputes, without stepping into a courthouse

E-File Solutions

Leverage an intuitive, user-friendly online platform for an easier way to file

Jury Management

Maintain, select, and process jury pools to streamline the entire jury selection process from start to finish

Official Records Management

Manage the entire recording process utilizing a scan first workflow, including guided indexing, verifying, and public search features

Advancing the Way Courts Operate

COURT CASE & COMMUNITY JUSTICE CASE MANAGEMENT

Case management administration made easy with a unified system

Court Case Management

- Manage documents, accounting, and event schedules through unified solutions for all courts, no matter the size
- Implement a configurable solution, built to scale to any size court and any case type
- Organize and update case information in real-time, streamlining communication across all parties, and managing a better workflow of case backlogs
- Eliminate redundant tasks and save time with innovative case batch processing via configurable workflows
- Allow judges to manage the entire bench from one screen with touchscreen in-court processing
- Provide ease and efficiency to counties and municipalities with a solution that seamlessly integrates into virtually any system

Community Justice Case Management

- Automate tasks from pre-trial assessment to drug and alcohol testing, leaving your staff with more time for other initiatives
- Minimize manual data entry with digital tools built to improve day-to-day management of community-based corrections programs
- Maintain oversight with systems that provide full visibility into pre-trial statuses, keeping staff and clients up-to-date
- Improve communication and task management by automating reminders, notifications, and reports
- Store and protect sensitive client information with a secure, web-based platform that fits the unique needs of your agency

Courts & Land Records Solutions

Court Case & Community Justice Case Management - Cont.

Data Analytics

- Provide a single source of truth for staff and executives
- Support a data-driven approach by managing key performance metrics and interactive dashboards through an all-in-one platform
- Engage with citizens via ad hoc reporting, analytics, and a public transparency web portal
- Integrate with data sources such as Court Case Management, Jury Management, ERP systems, Land Records Management, financial systems, and more to extract and transform source data into business insights for cross-functional operational reporting
- Build out reports and dashboards using pre-built data models with user-friendly drag and drop fields
- Ensure accurate data results and eliminate performance issues with integrated tables and fields across data models
- Designate role-level security and administrative functions for data access, report sharing, and report publication across business areas

Solution Highlights

- Scalable, unified solution
- Integrated, online court payments
- 24/7 access
- Configurable workflows
- Detailed audit reports
- User-friendly UI
- Notifications & SMS reminders
- Case scheduling & event tracking
- Integrated e-Filing
- Full-featured accounting
- e-Warrant creation

JURY MANAGEMENT

Dynamic solution to manage jury processes and support a digital court experience

- Simplify jury management and empower potential jurors with streamlined tools to help your office enhance the overall expectation of jury duty
- Communicate important information such as court holidays, weather issues, reminders, and payment notifications to jurors through instant text or email
- Collect questionnaire data through the online juror portal and give jurors the tools to submit anywhere, anytime
- Improve juror satisfaction with flexible on-site check-in through kiosks or mobile devices
- Offer jurors multiple ways to securely receive funds including ACH, bank transfer, prepaid debit card, gift card, PayPal, or charity donation

Solution Highlights

- Interactive Voice Response (IVR)
- Financial reporting
- Juror fee donation
- Text & email notifications
- Paperless processes
- NCOA integration & verification
- Summons printing & mailing services

Courts & Land Records Solutions

ONLINE DISPUTE RESOLUTION

A modern-day point of access solution that empowers citizens to resolve cases online

- Utilize online dispute resolution (ODR) for civil cases (small claims and family court), traffic tickets, minor infraction resolution, warrants, amnesty, and ability-to-pay assessments
- Enable the public, government staff, and others to handle relatively minor and routine proceedings entirely online
- Accelerate the number of cases processed and resolve case backlogs freeing up time for more impactful tasks
- Improve public access to justice by enabling courts of all sizes to provide 24/7 service
- Manage workflows and court case queues through one platform
- Increase judicial fairness by eliminating the need for in-person court hearings

Solution Highlights

- Real-time communication
- Mediator invitation via portal
- Mobile-ready
- Multilingual communication
- Data reporting & analytics
- Document & image sharing
- Text & email notifications

Courts & Land Records Solutions

OFFICIAL RECORDS MANAGEMENT

Digitally record, archive, and retrieve up-to-date public records

Land Records Management

- Record, index, and verify official documents utilizing a scan first workflow
- Introduce automated processes such as error-checking, quality control, and reporting to reduce data entry errors
- Implement new, flexible workflows that mirror existing processes but eliminate the need for different databases and multiple logins
- Empower citizens to search, download, and purchase record copies without staff involvement or wait times
- Improve the accuracy and efficiency of recording unstructured data by automating indexing and redaction

Solution Highlights

- Web access via personal device
- Batch process historical records
- Built-in e-recording integration
- Configurable role access
- Multi-document processing
- Intelligent searching
- Public portal access

E-FILE SOLUTIONS

Prepare and file court documents online

- Prepare and submit filings using a guided personalized interview style tool that eliminates redundant reviews and ensures the information submitted is accurate
- Establish a consistent case-specific workflow that guides individuals, families, small business owners, attorneys, paralegals, judges, court officials, and self-represented litigants through the end-to-end filing process
- Create all forms and consolidate pre-filed documents to submit to the court via an automated system
- Relieve pressure on in-person services and paper-based processes with efficient, self-service filing options
- Serve your court documents electronically using an affordable, convenient, and reliable e-Serve feature
- Calculate filing fees automatically with integrated payments

Solution Highlights

- Approve or reject entire filings or specific documents
- Manage entire filing process online 24x7
- Easy to understand, guided filing
- Tailored to any case type
- Mobile-ready
